

CAREER OPPORTUNITY

www.dmxtechnologies.com/packet-systems

Packet Systems is a regional IT service company and a leader in the convergence of broadband network infrastructure. Operating in Indonesia & Malaysia, Packet Systems is a wholly owned subsidiary of Singapore Exchange Mainboard-listed DMX Technologies group -- a leading network infrastructure and digital media solutions architect to service providers and corporate customers across Asia -- which is a member of KDDI Group.

Packet Systems Indonesia (PSI) offers a spectrum of advanced services including assessment, technical advisory, planning & design, systems engineering & integration, project management and maintenance in the area of Borderless Network, Collaboration and Virtual Data Center/Cloud. PSI has partnerships with the most advanced technology companies around the world including Cisco Systems (Gold Partner).

We have strong roots in Telecomm & Large Enterprise space with proven projects encompassing some of Indonesia's largest and most advanced networks.

PSI Professional Services (PS) Division's Security Group is inviting progressive and self-motivated young professionals to join as:

Associate Security Consultant

Reporting to the PS Security Team Leader, the role shall cover:

- Project scoping, systems architecting, proposal generation and proof of concepts execution
- Services delivery as in design and implementation planning documents

Competence, Experience and Skill

Required

- Early twenties, with excellent communication and interpersonal skill;
- An S-1 degree in IT, Computer Science or Engineering with minimum IPK of 3.0;
- Experience in IP networking;
- Having knowledge on layer 2/3 technologies and protocols incl. OSPF, EIGRP, etc.;
- Having knowledge and experience on Linux OS (mandatory) and Windows Server System (advantage);
- Having basic knowledge on Security devices e.g. firewall, IPS, etc;
- Competent with Microsoft Office applications i.e. Microsoft Visio, Word, Excel, and PowerPoint;
- Ability to perform under pressure and tight time constraints; self motivated; be able to work under limited guidance in line with a broad plan, or strategy;
- Leadership, teamwork, commitment, and service excellence personal qualities

Desireable

- 1 year security systems integration experience
- Security vendor / industry certification is an added advantage

If you are up for challenges and interested to apply for the position, please e-mail your most recent CV (with "Security Consultant" as the subject) to:
